

ETHIOPIA 2008

'A brief re-group at an Addis hotel and we were off, following the line of the Rift Valley lakes as we headed south. At Lake Zwiay Hammekops wandered around at our feet picking up fish scraps, and ranks of ugly Marabou Storks waited patiently for just about anything to come their way. Reaching Langanu we found a variety of birds in the scrub surrounding the hotel including Little Rock Thrush, Black-billed Woodhoopoes, African Orange-bellied Parrots, endemic Black-winged Lovebirds, Rufous Chatterer, Abyssinian Black Wheatear, and Rüppell's Weaver while Masked Shrikes, Eastern Olivaceous Warbler and Nightingale were just a few of the migrants from further north.

We had plenty of time to search through the huge number of birds bustling around the shoreline of Lake Abiata. As we walked closer, a pink haze resolved into thousands of Greater and Lesser Flamingos while in the extreme distance, tens of thousands of Northern Shoveler took flight, almost matched in number by the Ruff feeding in the flooded grassland, and two Black Crowned Cranes mingled with the 50 or so Common Cranes. Moving on we reached Wondo Genet in the late afternoon but the overcast skies robbed us of the usual Rift Valley sunset. The next day, a pre-breakfast wander down to the hot springs gave us our first White-cheeked Turacos and close views of Spotted Creeper followed as we walked through the woodlands, followed by the endemic Abyssinian Woodpecker, Red-shouldered Cuckoo Shrike, and Black-throated Wattle-eye to name a few. We also found a Half-collared Kingfisher on a hidden pool.

Up in the Bale Mountains, we had a superb day on the grey and green Roof of Africa watching Blue-winged Geese, Ruddy Shelducks, Wattled Cranes, Moorland Francolins, Spot-breasted Lapwings, Thekla Larks, Black-headed Siskins, a variety of raptors and of course several elegant Ethiopian Wolves. We also had good views of their main prey item, comical Giant Root Rats. The walk down through flowering tree *hypericum*s and towering junipers was successful with great views of Bale Parisoma, Cinnamon Bracken Warbler, White-backed Tit, Abyssinian Ground Thrush, Rufous-breasted Sparrowhawk, another Abyssinian Woodpecker, and masses of Tacazze Sunbirds, and Brown-rumped and Streaky Seedeaters.

We switched from the coaster bus to four 4x4 Landcruisers for the next part of the journey. We retraced our steps over the plateau, pausing to see African Snipe, and then dropped down into the Harrena Forest where a perched Ayer's Hawk Eagle was our first prize and some careful stalking eventually gave everyone great looks at Abyssinian Crimsonwing. The need for 4x4 vehicles soon became obvious and after some eventful driving we reached Negelle. We had come here to see two very special birds and we were all a bit surprised just how easy it was to find them. Within minutes of leaving our hotel we were watching a fine pair of Prince Ruspoli's Turaco perched up. Moving on the Liben plains, the dispensing of cold orange juice was interrupted by our next target, Sidamo Lark taking to the wing and singing right in front of us. We had close and prolonged views of this strange lark before rustling up scrambled eggs for breakfast - a covey of Temminck's Coursers and some Somali Short-toed Larks were other highlights here. The driving adventure continued as we left Negelle and headed for Yabello. Our journey took us across rivers and through some superb acacia thorn and dramatic scenery. Birds along the way included Vulturine Guinea fowl and White-crowned and Golden-breasted Starling, while Gillet's Lark, Magpie Starling, White-winged Dove and Pringle's Puffback were some of the highlights of a stop at the Melk Goba River. We had a really profitable stop near Soda with Somali Coursers, Stresemann's Bush Crows and White-tailed Swallows, and even managed to find a nest of the swallow, one of only a very few ever found.

The countryside around Yabello was the more green and lush than I can ever recall, and we had to work hard for the birds as they all seemed to be busy breeding and not too keen to show themselves. Pygmy and Grey-headed Batis gave good comparisons in the dense scrub

and the Red-naped and Sulphur-bellied Bush Shrikes performed beautifully. The hotel grounds and lake edge at Awassa were a pleasant place to wander around with Blue-headed Coucal and both Red-throated and European Wrynecks of note. Continuing north we had another stop at Langanano where we added to our previous visit with Bearded and Nubian Woodpeckers, better views of Hemprich's Hornbill, and White-winged Black Tit, and Freckled Nightjars. Slender-tailed Nightjars were found further along the lake where we had lunch and where Greyish Eagle Owls also showed very well. A return visit to Lake Abiata in search of Black Scimitarbill was successful, and we also all caught up with Grey-headed Bush Shrike there.

We moved on to the lava flows and extinct volcanoes of Awash where we watched Sombre Chats, Blackstarts, House Buntings, Bristle-crowned Starlings and Steppe Grey Shrikes. The birding around the improved Bilen Lodge was as superb as ever with wonderful views of Arabian Bustard just behind the huts, tame Lichtenstein's Sandgrouse, Yellow-breasted Barbets, African Collared Dove, Nile Valley and Shining Sunbirds, a surprising number of Ménétries Warblers and Black Bush Robin almost in the same bush as last year. A couple of dinky African Scops Owls joined us at our Awash Camp and a dawn excursion into the park to beat the heat was worth it for the Red-fronted Warbler, Eastern Paradise Whydah, Kori Bustards, Singing Bush Larks, Chestnut-backed Sparrow-Larks and tiny Desert Cisticolas.

There was a lot to cram into our last day but everything ran like clockwork. The main part of the day was spent on the Soluta Plains and around the huge gorge at Debre Libanos. Here we found White-winged Cliff Chats, Rüppell's Black Chats, White-billed Starlings, and Erkel's Francolins, and were also treated to some fantastic flight views of Lammergeier, while out on the plains, Erlanger's Lark, Ortolan Bunting, Red-throated Pipits, Groundscraper Thrushes, Red-breasted Wheatears were some of the attractions. We enjoyed some superb Italian food and decent wine for our last night meal before heading off to the airport and flight home.'
